## EXPERIENCE

**InfinitiBit GmbH** - an AI-first solution factory for a wide spectrum of business needs.

Remote, Dhaka

Software Engineer (Frontend Focused)

Feb 2025 – Present

- Developed AI-powered web applications using React, Next.js, and modern frontend stacks, ensuring high performance and usability.
- Integrated AI models and features into scalable, end-to-end software solutions tailored to diverse business requirements.
- Collaborated with AI specialists and backend engineers to design, prototype, and deliver production-ready, data-driven products.

**Talvette Limited** - a recruiting/job platform for candidates and businesses.

Remote, Dhaka

Software Engineer

Oct 2023 – Jan 2025

- Developed a high-performing recruiting/job platform with Next.js, NestJS, and PostgreSQL, driving a 75% increase in user engagement post-launch
- Optimized performance through RESTful APIs, reducing load times by 40%
- Managing Agile project methodologies for timely feature delivery and cohesive execution

**DRK-CBD**

Remote, Dhaka

Software Engineer / Freelance

Apr 2023 – Oct 2023

- Spearheaded the transition from Shopify to the MERN stack, optimizing system performance and scalability
- Managed agile workflows to develop and prioritize user stories, improving sprint efficiency

**Wunderman Thompson Studios**

Dhaka, Bangladesh

Web Developer

Jan 2022 – Mar 2023

Engaged in projects for 2 of their most valued clients **Dell** and **Microsoft**, while under contract with Wunderman Thompson Studios.

**Dell**

Software Product Engineer

Dec 2022 – Mar 2023

- Developed NodeJS scripts to convert legacy data into email templates, reducing marketing email creation time by 35%
- Engineered bash and NodeJS cron scripts for time-zone-specific email delivery, achieving less than a 1% bounce rate on over 1M weekly emails

**Microsoft**

Web Developer

Jan 2022 – Nov 2022

- Engineered a data curator plugin that slashed event invitation page development time by 60%
- Automated email verification workflows, reducing deployment scheduling time by 65%
- Crafted and validated custom SQL queries for seamless data integration

**Upb8**

Dhaka, Bangladesh

Software Engineer

Dec 2019 – Dec 2021

- Built UI components from design and wireframes using JSX, enhancing frontend modularity
- Orchestrated state management across components using Redux, improving data flow and re-render efficiency
- Transformed designs into Single Page Applications (SPAs) using NextJS and Tailwind CSS
