

Saddat Hasan

Full-Stack Engineer

Dhaka, Bangladesh | saddathasan94@gmail.com | +8801737898249 | saddathasan.dev | [linkedin](#) | [github](#)

Professional Summary

Full-Stack Engineer with 5+ years of experience building scalable, cloud-native web applications using React, TypeScript, and Next.js for enterprise clients, including Microsoft and Dell. Skilled in backend development with Node.js, FastAPI, and PostgreSQL, DevOps practices across AWS and Azure with Terraform, Docker, and GitHub Actions CI/CD, and AI product development integrating LLMs and OpenAI APIs - with a consistent focus on performance, scalable architecture, and Agile/Scrum delivery.

Technical Skills

Frontend: React, TypeScript, Next.js, TanStack Suite, Tailwind CSS, HTML5, CSS3, JavaScript (ES6+)

Backend: Node.js, NestJS, FastAPI, Python, REST APIs, PostgreSQL, SQL, Redis

DevOps & Cloud: AWS, Azure, Docker, Terraform, CI/CD (GitHub Actions), Bash, IAM, Linux

AI & Integrations: OpenAI API, LLM Integration, Claude Code, GitHub Copilot, Cursor

Tools & Methodologies: Git, Figma, Agile, Scrum, JIRA, Code Review, Performance Optimization

Professional Experience

InfinitiBit GmbH

Remote, Dhaka | Feb 2025 - Present

Full-Stack Engineer

- Developed AI-powered web platforms using React, Next.js, and TypeScript, improving load efficiency and user engagement through code splitting and performance optimization.
- Engineered secure RESTful backend services using Python and FastAPI, integrating LLM-based models and OpenAI APIs into scalable, production-grade business products.
- Provisioned cloud infrastructure across AWS and Azure using Terraform (IaC) and architected CI/CD pipelines with GitHub Actions and Docker, reducing deployment time and improving release reliability.

Talvete Limited

Remote, Dhaka | Jun 2023 - Jan 2025

Software Engineer

- Built and optimized a full-stack recruiting platform with Next.js, NestJS, and PostgreSQL, increasing user engagement by 75% through improved UX and performance.
- Designed and implemented RESTful APIs, optimized SQL queries and data structures, and configured Redis caching layers, reducing average page load time by 40%.
- Drove Agile/Scrum processes including sprint planning, backlog grooming, and retrospectives, ensuring timely and high-quality releases across the engineering team.

WPP Production (formerly Wunderman Thompson Studios)

Dhaka | Jan 2022 - Mar 2023

Web Developer (Projects: Dell & Microsoft)

- Automated Dell marketing email creation pipeline using Node.js and templating automation, reducing campaign setup time by 35%.
- Built Microsoft's internal data curator plugin for event management, cutting event page setup time by 60% and improving cross-team workflow efficiency.
- Automated QA and verification workflows, reducing scheduling overhead by 65% and improving release reliability.

Upb8

Dhaka | Dec 2019 - Dec 2021

Software Engineer

- Developed and maintained a library of reusable React UI components, managing application state with Redux to improve code modularity and reusability.
- Translated Figma wireframes into responsive single-page applications (SPAs) using Next.js and Tailwind CSS, adhering to accessibility and performance best practices.

Projects

Ria Medic Shop — POS & ERP System

Nov 2024 - Present

- Architected and developed a full-stack POS and ERP system from scratch for a medical retail business, handling end-to-end UI/UX design, React frontend, and PostgreSQL database schema design - with role-based access control (RBAC), inventory management, and real-time reporting dashboards.

Education

B.S. in Computer Science

BRAC University, Dhaka, Bangladesh
